IMPLANT PRICE LIST

Dental Implant treatment is available at both our Cirencester and Stow-on-the-Wold Dental Practices so please let us know your preference when you book in for your FREE Consultation.

FREE Preliminary Consultation - OPTIONAL

FOC

Patients just beginning to think about dental implant treatment may find it helpful to attend a FREE Preliminary Consultation with a member of the dental implant team. This appointment does not include a clinical examination and only takes 15 minutes. The discussion will help you consider the options for treating your dental problems and decide whether to proceed to a clinical consultation for implants.

FREE Clinical Consultation (30-45 minutes)

FOC

Once you have decided that you want implant treatment, the next step is a full Clinical Consultation. This includes a comprehensive oral examination, and results in production of a fully-costed individual plan for your treatment and a full treatment letter outlining the whole procedure. The Clinical Consultation is free of charge (including small X-rays) and £150 for a 3D-CT Scan if required.

Implant Fixture (i.e. the screw that goes into the bone)	£1,375.00
